

Industry-leading Safety Milestone

One Million Work Hours Without a Lost Time Accident

March 28, 2008 Houston, Texas - Employees of OYO Geospace's facility in Houston achieved an industry-leading safety milestone, working one million man-hours without a lost time incident.

In celebration of this achievement, Shepherd Ellis and Doug Cox of Tokio Marine Management during a visit to our facility on March 28th presented an award plaque to Gary Owens and David Doyle for the safety milestone of "One Million Work Hours Without a Lost Time Accident" that OYO Geospace achieved in the end of March. Also in attendance to commemorate this achievement were Jim Berger and Regan Miller with Insurance Alliance.

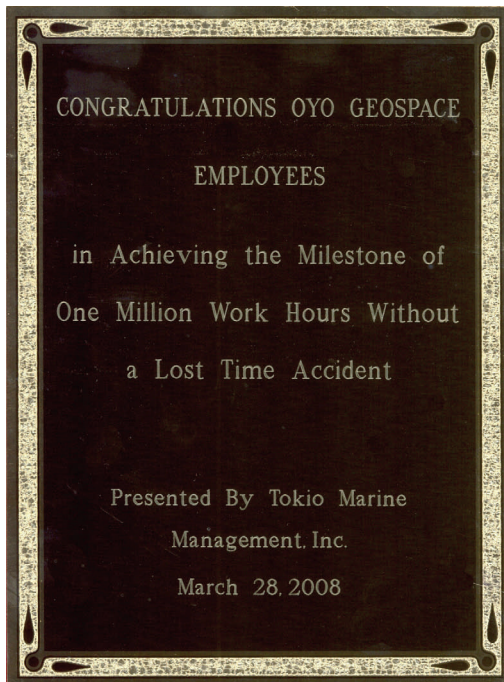

"Commitment to safety by employees and management is what it takes to reach a goal such as this, This is our first time to win a million-hour award," says Gary Owens, CEO OYO Geospace, going on to congratulate our employees for making dedicated efforts to promoting workplace safety.

"This is a marvelous accomplishment for our Houston facility," said David Doyle, Houston's HSE Director. I am pleased that our facility continues to improve its safety record - enabling all of us to live in a safer community - and OYO Geospace is really leading the way in this effort.

Houston Facility's safety record reflects it's employees' active participation in programs to promote on-the-job safety.

"A safe workplace is a top priority at OYOG. Our employees have demonstrated that our safety performance is a direct result of their efforts to work injury free," says David Doyle. "We are committed to becoming the front runner in Safety matters within our industry."

OYO Geospace continues to a leader in environmental, health and safety performance and contributing to improve the quality of life in the community.
